

## RAZE/Tobacco Prevention

Andrea Gilman, Youth Programs Coordinator

These students came together with other students from all across the state for a three day training on how to toughen their fight against the big tobacco companies. The students received lots of useful information that they can bring back to their schools and communities.

Along with attending many workshops they also got to relax and have fun at the teen dance, the wacky olympics, and karaoke.

Seven RAZE/TACS students joined over 250 RAZE students from across the state of WV at the statewide RAZE ON Conference, June 11-13 at the University of Charleston.

## Hoopin' for Health Fair

The Ebenezer Medical Outreach Center held the 3<sup>rd</sup> annual Hoopin'-4-Health three-on-three basketball tournament and community health fair. Six RAZE members helped set up a RAZE booth and inform members of the community about the dangers of tobacco use. The students gave demonstrations and passed out information packets.

## **RAZE ON the WATER**

Nine RAZE students held “RAZE on the Water” at the Dreamland Swimming Pool. The students were able to reach a new demographic of people and spread the word about the truths and myths about tobacco use. The students received a good response and did a great job!
